JOURNAL OF COMPUTER AND SYSTEMS SCIENCES INTERNATIONAL

(formerly Soviet Journal of Computer and Systems Sciences)

CONTENTS FOR 1992

Number 1

	Page
POMORTSEV, L. A.: Control Random Walks	1
LIVANOV, YU. V.: Formation of an Outcome Tree for Personal Computer Accident and Disaster Analysis	9
BORISENKO, I. I.: Synthesis of Multidimensional Stochastic System Controls by Means of Decomposition	15
KARLOV, V. I.: Combined Optimization of Observation and Control Processes	22
KONDRAT'YEV, V. V.: Decomposition, Structurization and Analysis of Socioeconomic Systems (Methods and Information Technologies)	30
FOMENKO, A. V.: Synthesis of a Singularly Perturbed Control System Using Fields of Slow and Fast Extremals	42
BITYUTSKIKH, V. T.: The MaximumProblem of Distributing Resources for Attack and Defence (II)	47
KIBZUN, A. I. and V. YU. KURBAKOVSKIY: Numerical Quantile Optimization Algorithms and Their Application to Solving Problems with Probability Constraints	54
BOCHAROV, V. YU. and A. A. MELIKYAN: Guaranteed Speed Problem with Target Point Search in a Polygonal Uncertainty Domain	61
KARNAUKHOV, V. M. and A. M. ONISHCHENKO: Attribute Selection from Reference Descriptions of Normal Three-Dimensional Sets	70
KOLOBOV, M. G.: State Estimation of a Dynamical System in the Presence of Uncertain State and Noise Measurement Components	77
VUKOBRATOVIC, M. and D. STOKIC: Is Adaptive Control Necessary for Manipulation Robots, and If So, to What Degree?	84
BERBYUK, V. YE. and YA. I. YANCHAK: Speed Optimization of Transport Motion of a Portal Robot	94
MALYSHEV, A. B. and A. S. YUSHCHENKO: An Investigation into Dynamic Control of Manipulators	109
CHEKUSHKIN, V. V.: Combined Tabular-Algorithmic Converter for Calculating Trigonometric Functions	114
MIKISHEV, V. V. and V. B. TARASOV: Application of Artificial Intelligence Methods in Computer-Aided Design. Analysis of USSR and Foreign Experience	120
VOLKOV, V. L. and P. V. PAKSHIN: The Logarithmic Number System in Control Algorithms and Information Processing	132
ZADOROZHNYY, D. YU. and A. B. KUZ'MIN: Mathematical Methods of Technical System Diagnostics	139
